

SIMONA
AMERICA GROUP

Company Overview

GLOBAL THERMOPLASTIC SOLUTIONS

SIMONA offers an unmatched portfolio of sheet and rod products and sizes for applications in virtually all major markets served by plastics fabricators and distributors.

With a global strategy to grow through market development and acquisition, SIMONA continues to establish its strong presence in the US, benefitting customers through a comprehensive range of materials and services.

The SIMONA AMERICA Group consists of three independent manufacturing and sales facilities in North America including:

SIMONA AMERICA Industries®

SIMONA AMERICA Industries manufactures materials primarily for industries such as chemical processing, semiconductor manufacturing, outdoor living, food processing, recreation, medical orthotics and prosthetics and food processing.

Featured brands

- **SAI® HDPE Boat Board®** for furniture and outdoor cabinetry
- **SAI® Polytone®** for signs and playgrounds
- **SAI® CRP-1®** for semiconductor manufacturing equipment

SIMONA PMC®

SIMONA PMC was acquired by SIMONA AMERICA Group in late 2018.

The acquisition expands the SIMONA AMERICA Group product line-up with an array of custom extruded and specialty sheet material and provides a solid base for developing new products and new high growth applications.

SIMONA PMC focuses on custom extrusion, specializing primarily in the manufacture of sheet products used in recreational vehicles, agricultural and industrial applications.

Featured brands

- **SIMONA PMC® Exultra™ 2000** soft-touch material for thermoformed parts

SIMONA Boltaron®

SIMONA Boltaron is a world leader in high-performance plastics for demanding applications, specifically for the aircraft interiors industry. Rail/mass transit vehicle interiors, as well as commercial and industrial are other main applications where SIMONA Boltaron materials are used.

SIMONA Boltaron offers 50 specialized grades offering a combination of fire ratings, durability, colors, textures and gauges unavailable from any other film and sheet producer. Boltaron® sheet products meet FAA requirements for flame, heat release and smoke generation.

Featured brands

- **Boltaron® 9000 Series** FAR-rated material for aircraft interiors
- **Boltaron® RIGIWALL Series** for protective wall cladding
- **Boltaron® 4332** high impact material for holsters and sheaths

Learn through hands-on training

Alongside our standard training program, we provide special training courses tailored to your individual needs – either at a SIMONA AMERICA Group location or on your own premises you will have a solid knowledge of SIMONA materials with hands-on training. Topics include: **Certification In Welding of SIMONA Materials, SIMONA Boltaron General Thermoforming 101, SIMONA PMC Products and Applications.** It goes without saying that we can also create a program that includes other fields of interest. We are happy to tailor our training courses to your personal requirements!

SIMONA AMERICA INDUSTRIES

Products

- PE, PP, PVC, PVDF, ECTFE, PFA sheets
- PE, PP, PVC, PVDF, ECTFE, PFA welding rods
- PE, PP, PVC, PVDF solid rods

Production capabilities

- Extrusion
- Coextrusion

Archbald, Pennsylvania, USA

Findlay, Ohio, USA

SIMONA PMC

Products

- TPO, ABS, HIPS, Polycarbonate ABS and Specialty Sheets

Production capabilities

- Extrusion
- Coextrusion

SIMONA bolteron

Products

- PVC/Acrylic sheets

Production capabilities

- Extrusion
- Calendering
- Press lamination

Newcomerstown, Ohio, USA

440 198 Street
