Palboard 3D has bright white, rigid, ultra-smooth PVC surfaces with a black or white foam PVC core. Rigid exterior layers offers better structural strength than standard foam PVC. Palboard3D is almost 50% lighter than aluminum composite material (ACM) with easier workability. Plus, Everclean™ protective film is standard on one side of every sheet.

Designers know it's the only substrate of its kind to spark your wildest 3D ideas! **Create WILD!**

Trade show display fabricated with 5mm and 10mm Palboard 3D. No adhesives. No fasteners. All tab and slot construction.

PALBOARD 2D

2D Applications

TWO-LAYERS - White/Black
Palboard 2D has a white, solid, ultra-smooth PVC surface with a black foam PVC back. Ideal for signage requiring attractive black edges and back. And like Palboard 3D, the uniform, smooth surface is bright white to provide vibrant color. It's the perfect complement to your Palboard 3D displays!

- POP and retail display signs
- Digital and screen printing
- Routed & relief lettering
- Rich, black edge and back make Palboard 2D ideal for stand-offs

Palboard: Tested and approved by the world's largest digital printer and cutting systems manufacturers.
