## SHAPING THE FUTURE OF PLASTICS

THROUGH MATERIAL STRENGTH  
AND APPLICATION EXPERTISE

## PLASTICS ARE ESSENTIAL TO LIVING IN OUR WORLD.

And Spartech is making a world of difference in plastic solutions that are sustainable, diverse, reliable and helping bring innovative ideas to life.

To us, plastics make life better. You see it, touch it and depend upon plastic for everything from food packaging to aerospace and automotive applications. We're making all this possible every day. As for where Spartech will take plastics tomorrow, there's no limit.

We're a reliable partner that knows how to shape our plastics expertise into success for your project.

It means we are responsive and deliver the custom plastic packaging and sheet and rollstock products you require. These solutions meet your specifications, timelines and budget requirements.

### PACKAGING TECHNOLOGIES

From concept to functional packaging design, Spartech is shaping the way companies take their products to market. We work with you as a partner. We listen, ask questions and then provide the kind of application development solutions that deliver market differentiation and enhanced brand image.

- Custom application solutions
- Product design and prototyping
- Custom barrier and non-barrier thermoformed containers
- Speed to market and cost-effective solutions
- Material expertise for barrier and non-barrier rollstock applications

### CUSTOM SHEET & ROLLSTOCK

The reason our sheet and rollstock solutions work is because we work with you. We learn about your performance requirements, project timelines, pricing and even your material selection ideas. We come back to you with a solution that's more cost-effective and ideal for manufacturability.

- A wide variety of material formulations
- Application expertise in automotive, building & construction, healthcare, and aerospace
- Trusted and proven brands like Polycast™, Royalite™ & Korad™
- On-time and on-budget delivery
- A responsive partner
